INFORMATION TECHNOLOGY

Broward College provides a wide variety of technology services for our students. We provide access to high-speed Internet on campus in our open computer labs, our Academic Success Centers, and college-wide WiFi for our classroom laptop carts and students who bring their own devices. Our students have access to email and cloud storage using Office 365 and access to the Microsoft Office suite from their personal device while attending Broward College. Online learning is facilitated using Desire to Learn (D2L) and Zoom.

A technical helpdesk is available 24 hours a day, seven days a week if students encounter problems accessing these services on college premises or remotely by submitting a Helpdesk Ticket (https://broward.onelogin.com/login2/?return=eyJ0eXAiOiJKV1QiLCJhbGciOiJIUzI1NiJ9.eyJwYXJhbXMiOnt9LCJtZXRob2QiOiJnZXQiLCJmZl9tdWx0aXBsZV9icmFuZHMiOnRydWUsIm5vdGlmaWNhdG Dekyfwh6Re4#app=772199) or by calling 954-201-7521.

Information Technology provides and supports the following student services, including:

- All computer classrooms, open computer labs, and software
- Printing and scanning
- Email and collaboration systems (Office 365)
- Learning management system (Desire to Learn)
