

HEALTH SCIENCES

(Health Sciences (<http://www.broward.edu/academics/health-sciences/>))

As our population ages, the need for more healthcare professionals trained in the latest technology increases. Get hands-on training and participate in clinical internships that will help you gain direct patient care, imaging and diagnostics or health informatics experience.

Areas of study include:

Diagnostic medical sonography, emergency medical services, dental assisting/hygiene, health information technology, nursing, physical therapist assistant, vision care, nuclear medicine, radiation therapy, respiratory therapy, radiography
