**INTERNATIONAL EDUCATION PROGRAMS**

**Study Abroad Programs**

Since 1974, Broward College has conducted study abroad programs around the world that allow students the opportunity to travel to another country while earning academic credit toward their degree. Study abroad is open to students of all programs of study who are at least 18 years of age and have a 2.5 cumulative GPA or higher. Programs range from one week to an entire semester in length. Information regarding BC study abroad programs and available scholarships can be obtained by contacting the Greene International Education Institute at 954-201-7709, by visiting the webpage online at [www.broward.edu/studyabroad](https://www.broward.edu/studyabroad) or reaching out to: abroad@broward.edu. The College offers two types of Study Abroad opportunities for students: CCIS and Faculty led programs.

**College Consortium for International Studies (CCIS) Study Abroad Programs**

Broward College is an active member of the College Consortium for International Studies (CCIS) [www.ccisabroad.org](https://www.ccisabroad.org), an international organization established for the purpose of providing affordable, high-quality study abroad programs to college students. Through our membership in CCIS, Broward College offers summer and semester-length academic programs in nearly 30 countries around the world including Australia, Japan, China, Ecuador, England, France, Spain, and Italy. Students earn Broward College credits through their participation in these programs. BC sponsors CCIS programs in Spain, Costa Rica and Austria with discounted rates and scholarships available for Broward degree-seeking students.

The Broward College Spain Program was established in 1979 to provide students the opportunity to study abroad for a semester or summer in beautiful Seville, Spain. Students can enroll at the International College of Seville or the University of Seville and earn 12-15 U.S. credits during the semester program and 6 U.S. credits during the summer program. Unlike other study programs in Spain, this program does not require prior proficiency in the Spanish language. Students may participate in additional coursework in English or Spanish depending on their existing level of language proficiency.

**Faculty-Led Study Abroad Programs**

Broward College also conducts several short-term, faculty-led study abroad programs during the spring break and summer term. Destinations and coursework offered to vary by the year. Programs are led and coursework is taught by Broward professors who accompany the students abroad during the international travel component, which lasts between 1-3 weeks. Participants earn between 3-6 credits upon successful completion of the program and course. Programs are open to BC students at least 18 years of age with a 2.5 cumulative GPA or higher and community members at least 18 years of age who wish to apply to the college and register for a study abroad program. For information on available programs, please contact the Greene International Education Institute at 954-201-7709, visit the webpage online at [www.broward.edu/studyabroad](https://www.broward.edu/studyabroad) or write to abroad@broward.edu

**Scholarships and Financial Aid**

Many types of state and federal aid may be applied to study abroad programs. There are also scholarship opportunities available to students looking to subsidize their travel costs. Institutional funding such as the William E. Greene Scholarship for Semester Study Abroad—a full scholarship awarded each fall and spring term to students interested in studying abroad in Spain, Costa Rica or Austria. Also, short-term travel grants are available to BC degree-seeking students who are participating in BC sponsored study abroad programs. External scholarships such as the Benjamin A. Gilman International Scholarship and the Fund for Education Abroad Scholarship also provide additional funding for study abroad programs. For information on funding opportunities, please contact the Greene International Education Institute at 954-201-7709 or write to abroad@broward.edu

**International Partnership Programs**

Broward College has established formal linkages with several institutions of higher education around the world. Since 1981, BC has maintained academic affiliations with educational institutions located in Europe, Asia, and South America. Broward College's regional accreditation does not transfer to these international partners. However, after being approved by the College's accrediting agency, the BC program offered at these locations awards BC credits leading to the AA or AS degree.

International partners utilize the BC curriculum and offer courses and programs similar to those offered at BC. Broward College provides technical assistance to facilitate the parallelism and quality of the academic programs offered at all international locations. This includes holding regular virtual workshops, conducting site visits to observe classes, meet faculty, staff, and students, and evaluate the adequacy of facilities, learning resources, and student support services.
