

INFORMATION TECHNOLOGY, ADVANCED TECHNICAL CERTIFICATE

Program Code: 4283

Career Pathway: Science, Technology, Engineering, and Math

Program Entrance Requirements: Students must hold a minimum of an AS or AAS.

Program Description: The Information Technology Advanced Technical Certificate offered at all Broward College campuses prepares students for careers in Information Technology. The program covers core concepts on operating system support, hardware support, network support, Cybersecurity, and troubleshooting. The program is flexible and adapts to the industry specialization track selected by the student. Upon successful completion of this technical certificate, students should be able to secure employment as IT Technicians.
